Govt polytechnic college
Nedumangad

Certifications

- Diploma in Classical and Commercial Arts** 
Govt of India under General
Education

Aadithyan A S

Full Stack Web Developer

Professional Summary

Driven Full Stack Web Developer skilled in the MERN stack and rapid adoption of new technologies like Generative AI. Proficient in JavaScript, Node.js, and React.js with a keen ability to optimize database queries. Exceptional at team collaboration, problem-solving, and enhancing software workflows.

Projects

FlipkartClone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3
- Responsive Web Design
- React
- Redux
- Git
- Node.js
- MongoDB
- RESTful APIs

- Developed dynamic user interfaces using React.js and Redux to replicate Flipkart's core features.
- Designed and implemented efficient server-side APIs with Node.js and Express.js for e-commerce functionality.
- Utilized MongoDB for database management to handle product, cart, and user information efficiently.
- Integrated payment gateways and live order tracking, ensuring seamless transaction and user experience.
- Conducted comprehensive testing and debugging to maintain application reliability and stability.

Movie Trailer Application [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- React
- Git
- RESTful APIs
- Responsive Web Design
- CSS3

- Designed an engaging web app using React.js and Tailwind CSS for movie enthusiasts to explore trailers.
- Implemented trailer playback and detailed movie information with a modern, responsive UI.
- Integrated external APIs to fetch real-time movie data and provide dynamic user experience.
- Focused on responsive design with Tailwind CSS to ensure uniform functionality across devices.

Library Management System [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- React
- CSS3
- Git
- RESTful APIs

- Streamlined library operations with intuitive interface for managing books, members, and transactions.
- Implemented user registration, login, and book borrowing functionalities updating Firebase database.
- Developed features to track borrowed/returned books, and manage book catalog effectively.
- Ensured seamless user experience with dynamic views of user details and book availability.
